

Disability Skills Passport

The simple way for Support Workers to show proof of their training and qualifications.

The Disability Skills Passport has been developed by NDS and technology partner, Pegasus, to provide insight, portability, and proof to the sector.

In a simple, user-friendly online portal, the Passport:

- **reduces** duplication of training
- **speeds up** deployment of Support Workers
- facilitates Support Worker **mobility** within the sector
- increases the **recognition** of skills in the workforce
- allows Support Worker profiles to be updated at **any time** online
- **improves** workforce retention rates
- provides **total insight** into the workforce with easy-to-run reports
- enables worker information to be independently **verified**
- offers access to **expert** IT support

How does it help?

Support Workers

prove they are fit for work and carry a digital record of their qualifications and capabilities with them to any workplace.

Service Providers

prove and check that their Support Workers are qualified and trained, sending them to work with confidence.

Participants

check the profile of every worker and choose to only be supported by qualified and capable workers.

The Disability Skills Passport is fast-tracking employment and quality assuring the workforce. **Partner with us today.** Email: info@pegasus.net.au Phone: **1300 441 433**
