

## OCE TUTORIALS - CERTIFICATE IV IN SURFACE COAL MINING (OPEN CUT EXAMINERS) additional exam preparation OCE TUTORIALS

#### Course overview

The Certificate IV in Surface Coal Mining (Open Cut Examiner) is one of the mandatory requirements for those wishing to undertake the role of Open Cut Examiner on a mine site. OCE's conduct tasks involving a wide range of varied activities most of which are highly in depth and non-routine. They are to manage the quantity and quality of the work produced by others and to contribute to the development of technical outcomes to non-routine problems that arise.

#### RII40215 Certificate IV - in Surface Coal Mining (Open Cut examiner)

##### 10 Mandated/Compulsory Units

- RIIERR401D Apply and monitor surface operations emergency preparedness and response procedures
- RIIMEX405D Apply and monitor systems and methods of surface coal mining
- RIIBLA301D Conduct surface shotfiring operations (mandatory in NSW)
- RIIBLA205D Store, handle and transport explosives
- RIIRIS402D Carry out risk management processes
- RIIWHS404D Implement and monitor health and hygiene management systems
- RIIWHS301D Conduct safety and health investigations
- RIIMPO403D Monitor interaction of heavy and light vehicles and mining equipment
- RIIWHS402D Examine and maintain mine safety
- BSBSUS301A Implement and monitor environmentally sustainable work practices

##### 3 electives Group B Specified Electives

- RIIMPO304D Conduct Wheel Loader Operations
- RIIMPO311D Conduct Haul Truck Operations
- RIIMPO310D Conduct Grader Operations
- RIIMPO3012D Conduct Scraper Operations
- RIIMPO308D Conduct Tracked Dozer Operations
- RIIMPO301D Conduct Hydraulic Excavator Operations

##### 1 elective Group C Specified Electives

- RIICOM301D Communicate information

#### Exam Preparation - Tutorial Overview

This tutorial program is designed to prepare persons attempting the next Open Cut Examiners Statutory Examination – expected to be held on June 2017 (date to be confirmed).

##### Aim of tutorials:

- Give practical examples to understand other methods and systems that can be in the exam, but may not be covered in the course content ie draglines, environmental, highwall mining and mining hot spoils
- Exam simulation and exam response analysis (both group and individual)
- Develop examination response techniques

##### Method:

- Ensuring that students have a comprehensive understanding of the OCE statutory requirements and are prepared for the examination
- Extensive materials will be provided as part of the cost, including specially prepared 'open-book' legislation examination notes and guides (which can be taken into the examination)
- Tutorial course comprises of ten to twelve sessions, for six to eight hours, once a week leading up to the OCE Statutory Examination
- Further extensive tutorial notes are provided to assist candidates in completing practical questions in the practice sessions, leading to the examination
- Sessions build on skills of how to respond and appropriate response guidance
- By week 4 and 5, there is more information focused on method and systems for full operational understanding as well as exam

##### What should I expect:

- Candidates will be expected to prepare and present practical examination question answers to the group, each session
- Sessions involve group work as well as individual activities
- Group discussion based on exam responses and case studies/practical examples
- Legislated questions are also revised and completed, during the course

##### The Pegasus point of difference

- Proven successful completion rates
- Twelve tutorial sessions
- Comprehensive eight hour tutorials
- Bespoke content to reflect examination & industry requirements
- Three practice, three hour exams, during the tutorials
- Revision of the last twelve statutory examinations
- Shortened versions and revision of relevant legislation
- Ongoing Examination and Oral Support by arrangement
- Supply of extensive documentation, including:
  - Open book legislation notes
  - Past exam analysis
  - Past exams and DPI reports
  - Pro forma answers for common practical questions
  - Past legislation questions and answers
  - Past DPI Exam Briefings
  - Extensive Tutorial Notes covering all exam subject matters

## OCE Timetable 2016/2017 - Hunter Valley (Singleton delivery location) \*(Could be subject to change)

### COURSE

Date	Units	Trainer
Monday 5th September, 2016	Information session (You only need to attend one of the information sessions)	
Tuesday 6th September, 2016	Information session (You only need to attend one of the information sessions)	
2 week break		
Monday 26th September, 2016	RIICOM301D – Communicate information	Peter Ramsay
Tuesday 27th September, 2016	RIIWH301D – Conduct safety and health investigations	Peter Ramsay
2 week break		
Monday 17th October, 2016	RIIRIS402D – Carry out risk management process	Peter Ramsay
Tuesday 18th October, 2016	BSBSUS301A – Implement and monitor environmentally sustainable work practices	Peter Ramsay
3 week break		
Monday 14th November, 2016	RIIBLA301D – Conduct surface shottfiring operations (mandatory in NSW)	Robin Hopps
Tuesday 15th November, 2016	RIIBLA301D – Conduct surface shottfiring operations (mandatory in NSW)	Robin Hopps
2 week break		
Monday 5th December, 2016	RIIMEX405D – Systems and methods of surface coal mining – Pt 1 Legislation	Robin Hopps
Tuesday 6th December, 2016	RIIMEX405D – Systems and methods of surface coal mining – Pt 1 Legislation	Robin Hopps
4 weeks off over Christmas/New Year period		
Monday 9th January, 2017	RIIERR401D – Surface operations emergency preparedness and response procedures	Robin Hopps
Tuesday 10th January, 2017	RIIWH3404D – Implement and monitor health and hygiene management systems	Robin Hopps
1 week break		
Monday 23rd January, 2017	RIIWH3402D – Examine and maintain mine safety	Robin Hopps
Tuesday 24th January, 2017	RIIMPO403D – Monitor interaction of heavy and light vehicles and mining equipment	Robin Hopps
1 week break		
Monday 6th February, 2017	RIIMEX405D – Systems and methods of surface coal mining Pt 2-7	Robin Hopps
Tuesday 7th February, 2017	RIIBLA205D – Store, handle and transport explosives	Robin Hopps
2 week break		
Wednesday 22nd February, 2017	Mine visits – Hunter Valley	Robin Hopps
Thursday 23rd March, 2017	Mine visits – Hunter Valley	Robin Hopps
TBA	Western Mine Visits – by appointment	Robin Hopps
3 week break		

### TUTORIAL

#### Tutorial program dates

Monday 6th March, 2017	Tutorial and Practical M&S March 2010 exam	Robin Hopps
Monday 13th March, 2017	Tutorial and Practical M&S September 2010 exam and 3 hr practice exam	Robin Hopps
Monday 20th March, 2017	Tutorial and Practical M&S March 2011 exam	Robin Hopps
Monday 3rd April, 2017	Tutorial and Practical M&S September 2011 exam	Robin Hopps
Monday 10th April, 2017	Tutorial and Practical M&S March 2012 exam	Robin Hopps
Monday 24th April, 2017	Tutorial and Practical M&S September 2012 exam and 3 hr practice exam	Robin Hopps
Monday 1st May, 2017	Tutorial and Practical M&S March 2013 exam and August 2013 exam	Robin Hopps
Monday 8th May, 2017	Tutorial and Practical M&S August 2014 exam	Robin Hopps
Monday 15th May, 2017	Tutorial and Practical M&S July 2015 exam	Robin Hopps
Monday 22nd May, 2017	Tutorial and Practical M&S June 2016 exam and 3hr practice exam	Robin Hopps
TBC 17th March, 2017	Applications for exam final submission date	
TBC June, 2017	Statutory Examination Date	
TBC June, 2017	Oral Examinations
