

Pegasus WHS Auditing and Consultation Services

A safe workplace is critical for business performance. In fact, making work health and safety a priority:

- improves health and wellbeing,
- increases performance and productivity,
- enhances resilience and job satisfaction, and most importantly,
- reduces harm and injury.

Work Health and Safety (WHS) requires a commitment from all levels of an organisation to provide a safe working environment. A compliant WHS management system reduces the likelihood of breaches, prosecutions, and penalties if an incident occurs. An effective, implemented WHS Management System is an investment in your workplace.

A Safety Investment

Pegasus is the leader in workforce management safety solutions. Our tech empowers users to manage the safety and compliance of their workforce, including contractors, by setting strict standards of safety and compliance. In our solutions, those documents are uploaded and verified, along with information to prove an organisation's safety obligations are being met. The Pegasus WHS Auditing and Consultation Service is your safe workforce partner. Our qualified and professional Auditors will complete the due diligence needed to reach your safety goals and provide you with the tools and certainty to manage your risk.

Partnering with Pegasus

Who We Are

You will enjoy the highest standards of service with the Pegasus Auditing team as your partners in safety.

Our professional team each has a minimum Lead-Auditor Qualifications along with a variety of other endorsements.

Our Auditors have comprehensive experience overseeing safety and compliance in the retail, mining, manufacturing, environment, transport, forestry, construction and aviation industries.

We are responsive and helpful – we guide your contractors through the audit process, helping them to prepare and respond, and to learn and improve. It is our job to ensure your workforce is doing everything required to reduce your risk.

How We Work

Stage 1: Strategy and Planning

1. Conduct a gap analysis and identify applicable legislation, codes and standards
2. Identify your WHS risks and hazards
3. Build strategies to manage those risks

Stage 2: WHS Safety Management Systems

1. Create tailored WHS management systems
2. Develop WHS policies, procedures and audit tools

Stage 3: WHS Workforce and Contractor Management

1. Pre-qualification audits on selected contractors
2. Site audits on selected contractors
3. Other audits as required - observation, mystery shopper, hygiene and quality service
4. Contractor consultation and road show training days

Managing Your Risk

When you partner with Pegasus WHS Auditing and Consultation Services, you are getting much more than a team of Auditors. We are your eyes and ears in the field, working with you to manage your risk from day one, and ensuring you are getting real value from our service. You can trust our experience:

- Managing risk and auditing workforces for world-leading, respected clients.
- Using proven audit tools and staying up-to-date with industry standards and legislation.
- Travelling nationally to conduct site audits on major construction projects, retail centres, and mining sites.

- Designing industry-specific WHS audit tools
- Providing expert incident investigation services to identify the cause of a WHS incident.
- Training and consulting to guide contractors and provide value to clients
- Presenting on WHS legislation

The Benefits of Our Partnership

Working with Pegasus WHS Auditing and Consultation Services gives our valued partners:

- Full-service contractor audit professionals, accessible for advice and recommendations at any time
- Impartial results measured against an agreed audit tool, allowing for quick response
- Regular and ongoing consultation to make the most of our partnership
- Help to identify areas of concern and guidance to respond with corrective actions and timeframes
- Regular audit and statistical results to see where you stand and where you can improve
- Benchmarks and percentage pass-marks set for a full picture of your contractor's safety standards
- A professional audit report with agreed weightings matched to your safety priorities
- Responsive, guided assistance for contractors reaching compliance, with resources including knowledge base and user guides to help them understand and improve
